

## **Sprint 4 Report**

**Product Name: Beads Net**

**Team Name: Weaver**

**Date: 12/02/2018**

- **Actions to stop doing:** We should stop being too ambitious on our project. We should stop adding more feature when it is close to the end. We should stop putting a lot of time on unimportant details.

- **Actions to start doing:** We should start to prepare for presenting our project. We should start to finalize our speech for the presentation.

- **Actions to keep doing:** We should keep communicating with teammates in order to collaborate everyone's works.

- **Work completed/not completed:**

### **Completed user stories :**

**User story 2:** As a user, I want to see a list of results that can be filtered by certain factors after search because I want to have a traditional way of searching for film.(completed)

Task 1 - Implement filter feature (13hr) (completed)

Task 2 - Users can go to next page of the result (8hr)(completed)

Task 3 - Tags are able to search for genre instead of title (5hr) (completed)

Task 4 - Anime page can only searched for animation movies(5hr)(completed)

Total time for user story 2: 31 hr

**User story 3:** As a user, I want to see different appearance of results, because I want to understand which movie has more rating. (completed)

Task 1 - Change the size of the results based on distance. (8hr) (completed)

Task 2 - Showing description when mouse over the posters. (5hr)  
(completed)

Task 3 - Be able to present 10+ results (3hr) (completed)

Total time for user story 3: 16hr

**User story 4:** As a user, I want the webpage looks neat because I don't want to use an ugly website.

Task 1 - Improve the sign up/login page design (3hr)

Task 2 - Improve the home page design (3hr)

Task 3 - Improve the result page design (3hr)

Task 4 - Improve the profile page design (3hr)

Total time for user story 4: 12 hr

#### **Incomplete user stories:**

**User story 1:** As a user, I want to save the movie or anime I like to my profile so that I can have a quick access to my preferred ones. (deleted)

Task 1 - Link the profile to database (5hr)

Task 2 - Save the result into database after user click on "like" button (8hr)

Task 3 - Read and display the saved result from database onto profile page (8hr)

Total time for user story 1: 21 hr

• **Work completion rate:** The total number of user stories completed is 59 hours. The total number of estimated ideal work hours competed is 80 hours.

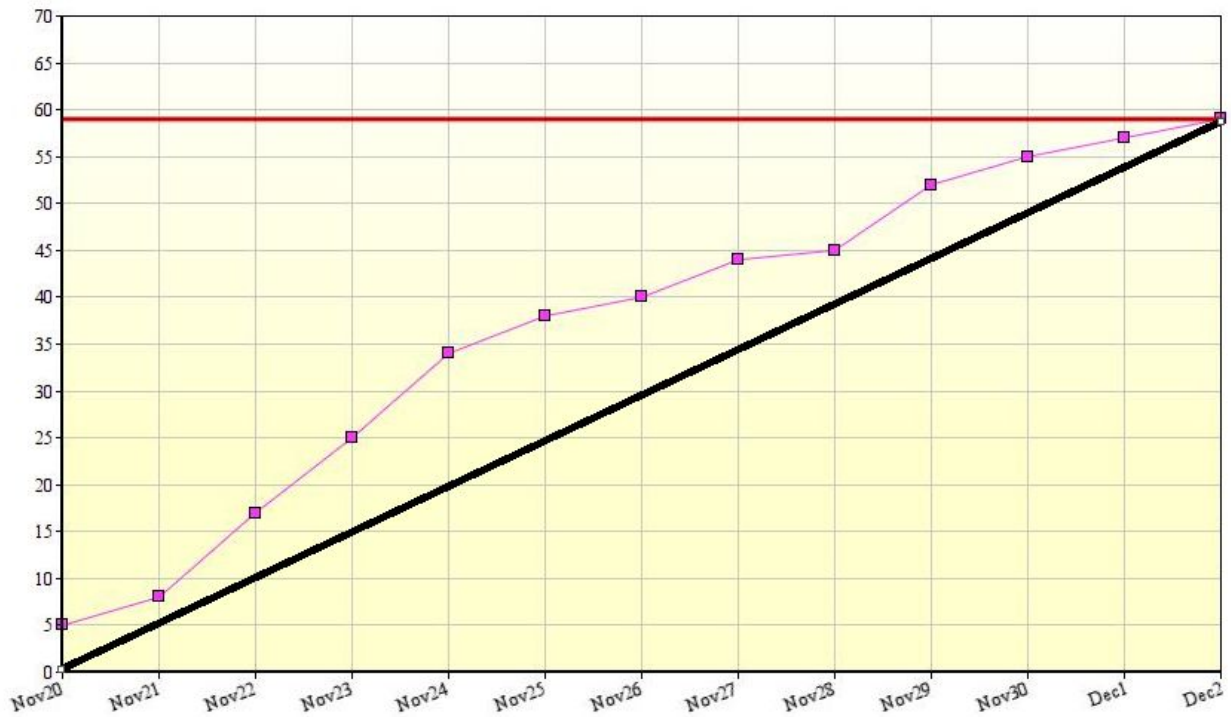

**Total number of user stories completed: 3**

**Total number of estimated ideal work hours completed: 59hr**

**Total number of days during the prior sprint: 14 days**

**The average user stories/day: 0.214**

**The average ideal work hours/day figures: 4.214**

## Scrum Board:

User Stories	To Do	In Progress	Done
<b>User story 1:</b> As a user, I want to save the movie or anime I like to my profile so that I can have a quick access to my preferred ones.			
<b>User story 2:</b> As a user, I want to see a list of results that can be filtered by certain factors after search because I want to have a traditional way of searching for film.			<b>User story 2:</b> As a user, I want to see a list of results that can be filtered by certain factors after search because I want to have a traditional way of searching for film.
