Working Prototype Known Problems Report
Product: Beads Net
Team: Weaver
Date: 12/02/2018

1. Some posters are not available from the database. There will be an error icon when the search results appear. It maybe possible to have an if-statement to check if the poster is available or not, if not, replace it with a default image.

2. Some flaws in layout. It cannot adjust size. It may be fixed by adding some css styles or adding some divs.
